## Academic Projects

### **Tylite : Lamps in Leather & paper**

The visuals of slate tiled roofs in Northern India has been translated on different materials. The form's pattern is derived from an earthen pot.

### **Aparajita : Glass Jewellery**

Inspired by the Indomitable Goddess Durga, the glass pieces are designed for contemporary women and depict their confidence and independence. The jewellery pieces are subtle and and stylish, and can be worn to make a style statement at any occasion.

### **Koolhands: Eco- Friendly Personal Accessory**

Aimed to beat the heat and the scorching sun, the product is a glove used by people using two-wheelers for commuting. The target user are young women, but the product range could be extended to varied clientele and designs.

### **Bamboo Accessories : Aga Khan Foundation Project**

A family of 2-3 products designed in accordance with existing brand identities, project challenge being working with craftsmen from Netrang , and building craftsmen confidence in up-class products.

### **Artisans' Village :Final year Thesis**

A common center bringing together artists, artisans and market, planned on an area of 30 acres, with bamboo and mud structures. This project is inspired by local residence and market patterns combined with community design concepts.
