About Me

I'm **Bachelor of Science in Information Technology** and highly experienced in Interaction Design, User Experience and User Interface Design for Web Applications. Presently I am involved with Educomp Solutions LTD as a Senior User Interface designer.

I absolutely love what I do. Design and Technology have always been two big brainwaves in my life. Over time, both of these passions have merged and evolved into what I am today. I'm a gadget enthusiast and an internet technology junkie. Not only is it my job, but it's also my passion. I have substantial professional working experience in Designing and Development domain. I obtained my expertise in:

- User Interface Designing
- Usability Analysis
- HTML/xHTML/CSS
- Flex Frontend
- Front end standards for web applications
- Handle support enquires related to Usability
- Audio Editing
